Looking After the Eggs. Lady Hetty, who is 4 years old and never misses a trick, was taken the other evening to a restaurant for her supper, and with all the importance and sprightly dignity of her years Calmiy ordered posched eggs on toast. While the little family group was awaiting its service the "kiddle" amused herself by looking out of the window, pressing against a screen to get a closer view of something below. She was warned by her mother that the screen might give way and let her fall to the sidewalk, perhaps injuring her terribly. She drew away, thought a minute, and then said naively; Would I fall if the screen went out?" "You certainly would," was her morher's reply. "And would I get awful hurted?" "Very likely." "Then what would the man do with the eggs?"

Resinol in Three Weeks Does What Other Remedies Failed to Do in Four Months.

My baby's face was like a raw and bleeding piece of meat. I was at my wits' ends what to do. Medicine from three physicians and cintment recommended seemed to make the Eczema worse. Then another mother spoke of Resinol, which I procured at once-remember I had no more faith in it than in all the rest I had tried-but I thought it would be wasting only 50c more. Never did I spend 50c to better advantage, for the first and second days I noticed a remarkable change, and now at the end of the third week I have my pretty blue eyed, rosy cheeked, cooling baby well again. I am safe in saying he is perfectly cured and the cure was surely something remarkable. Your Soap and Ointment did in three weeks what everything else I tried failed to do in four months. My baby was positively disfigured now his complexion is all right again.
